CHOLERA IN ST. PAUL.

A German immigrant named Engelhard, who died of cholera on the "Soo" train which left St. Paul on January 17th. The case was pronounced one of genuine cholera by the physicians who viewed the corpse. The deceased came direct from Gaden, Germany. As he reached St. Paul on the "Soo" train he must have passed through Canada on the way. When cases of cholera occur in winter in the interior of the continent as St. Paul, it is high time that every preparation was being made to absolutely prevent the import of possibly infected persons. Now is the time to take defensive measures. In the spring it will be too late.

BATTLE RIVER MISSION NOTES.

Indians are coming in and schools are opening. The hunting of large game is hindered by a crust on the snow, but the snow is not so deep at Battle River as at Edmonton. The catch of white fish at Pigeon Lake is becoming less as the season advances. The fishery guard has received notice that the 23 fishing nets set from the people at Pigeon Lake were to be burned according to law, but he has written to the fishery inspector for permission to return the nets if such a course is possible.

Major McGibbon, inspector of Indian agencies, has completed his inspection and gone south.

THREE TESTIMONIALS.

Free Press:—The following letter has been received by Messrs. Oler, Hammond & Nanton, and is from the Free Press of Hamilton, and is the testimony of three reliable farmers as to the capabilities of the Canadian Northwest:

SCHUYLER, Neb., Dec. 10, 1892.
Oler, Hammond & Nanton, Winnipeg, Mani-

CLEVELAND.—Having made the tour of the Northwest Territories, and while thanking you for courtesies to us, we desire to say that in the respective parts of the country we have lived we have never seen such crops as we have seen harvested in Alberta during the last season. The Edmonton country is especially fine, but ourselves and friends prefer the part of the country between Calgary and Edmonton, about fifty-eight miles north of Calgary, at Old Station, where we saw most of our country are settled. The soil is rich, the vegetation mould and crops were enormous all about the road. Some farmers were complaining because they were only yielding fifteen bushels of No. 1. The crops are excellent and even on the ground. We visited the farms of Murray & Basin and Mitchell Bros., near Old Station, and found their cattle ranging far and wide, and were assured that the stock had never been felled. From one city of Schuyler about one thousand have entered and purchased 11,000 acres, all in the vicinity of Old Station. There is plenty of land of excellent quality for sale and purchase. Our party was composed of pioneers who helped to settle up the state of Nebraska in 1860, and they do not consider they had one half the advantages that we have in this country. Coal and wood are abundant everywhere, while Nebraska is entirely destitute of both. Agriculture is the best for countries shown, we were very truly,

Mr. Lattimore, speaking at Ottawa, said that the establishment of separate schools in Manitoba was necessary. With him it was matter of conviction, and he would stand out for the rights of the minority regardless of what action the government was likely to take.

Prince Albert is preparing to vote a \$3,000 bonus (a flooring mill of not less than 75 barrels a day). Battledford Herald: Harry Parker has a pair of fine snow birds that he bought from the Chipewyan Indians last summer. They are quite tame and roam at liberty about the house and nothing seems to excite them. They like to be petted and will be just around anywhere. Mr. Parker intends to keep them as pets, and when he does he will have a team of flyers. Their horns are just beginning to grow.

The investigation into the charge that deputy collector of inland revenue Coughlin signed the exemption certificate circulated by R. A. MacDonald recently, has been completed and the evidence will be submitted to the minister of inland revenue. MacDonald was a witness. Before the statement that the petition had been laid but he would say nothing, adding that if it were an offence to sign such a document it would have an effect to require signatures, and he declined to incriminate himself.

The directors of the Chicago board of trade have adopted resolutions protesting against the president of the United States taking any action that will deprive his citizens from availing themselves of the facilities of the Canadian roads for transporting the products of the United States through the Dominion of Canada and re-entering the United States free of duties, and under proper restrictions. The resolutions were telegraphed to the president, and copies were mailed to the United States senators and representatives from Illinois.

If the world was in doubt as to who was running Republican affairs, a little circumstance which occurred about two weeks ago would relieve the doubt. The Executive order of the day in a minority obnoxious to the British government. The representative of Mr. Galt, principal merchants, Medicine Hat, died recently at Monrovia, California, of lung trouble brought on by an attack of diphtheria two years ago.

The committee of management have decided to commence the bonspiel for the Hardy cup on Monday next. This will be followed at once by a points competition for the president's medal and then again by the points competition for the district medal.

CORONER'S INQUEST.

The inquest on the body of Wm. Holm, who committed suicide at his farm at Clover Bar on Monday last was held on Monday afternoon by Dr. McInnis, coroner. The coroner's jury was composed as follows: W. B. Matheson, Foreman; T. G. Clelland, F. Stewart, O. Osborne, W. Shaw, A. Reed, N. Gibson and P. Ottewill, the party who found the body on Sunday afternoon were examined as witnesses. From the evidence it appeared that the deceased had been considered to be of slightly unsound mind for some time past, and that he had threatened suicide. On Saturday morning, Shaw, who lives on the opposite side of the river from the farm of deceased, as do Gibson and Reed, had occasion to pass his house and saw him. On Saturday afternoon he repassed and did not see him. On Sunday morning he again passed and saw no one. Suspecting that something was wrong he told Reed and Gibson of his suspicions and they decided to go and investigate. Before reaching the house they met (Holm) who lives on the same side of the river as deceased, and the four men went into the house together. Going upstairs they found deceased lying on his back on the floor, dead, with a small rope drawn tightly around his neck. It seemed that he had taken a piece of window cord and doubling it up as to make it three ply, he climbed to the collar beams which brace the rafters about midway of their length, and having made a slip loop at one end of the rope placed it around his neck, tied the other end of the rope to one of the collar beams and then jumped down. Evidently two strands of the three strand rope, which he had made broke when he fell, but not until the rope had been drawn so tightly around his neck as to cause death. The third strand apparently had held for some time, but had finally broken, and allowed the body to drop to the floor, where it was found. The jury returned a verdict that the deceased had caused his death by hanging by his own hand, while insane. The parents of the deceased, who live at Parkhill, Ontario, were communicated with, and they have expressed the desire to have the body sent home. The body and effects were handed over to the charge of the mounted police who will take care of them until they are sent east. The deceased was only 24 years of age and was in

good circumstances, having paid \$1,500 for the farm which he occupied and had had money in the bank. The form of insanity by which he was afflicted was that he believed the devil was about to claim him; and was distinctly aggravated by the loneliness of the life which he had been leading since his arrival in the country in November last.
